now

- Meeting the supervisor at 10:45 am, June 6.

Planned but not accomplished:

- <01> Website layout design
- <02> Restful API design
- <03> Database design
- <04> Create Front-end project
- <05> Create Back-end project

**Planned actions for the next period:**

- <01> Website layout design
- <02> Database design
- <03> Create Front-end project

Project issues summary

ID	Priority	Issue Description	Impact Summary (Milestone, Schedule Scope, Resources, Space...)	Action Steps
<01>	<H>	So many UI details	It will take much time to complete	We will assign more members to complete it together
<04>	<H>	Technology challenge	We have members with back-end background, but not familiar with front-end skills	Continue learning front-end skills before creating the front-end project
<05>	<L>	Technology challenge	Not familiar with some libraries, like ChatGPT libraries, distributed cache libraries	Continue learning

Project risk summary

ID	Priority	Probability of Occurrence	Risk Description	Impact Summary (Milestone, Schedule Scope, Resources, Space...)	Response Strategy
<01>	<H>	<L>	Schedule of developing Font-end project will be affected	schedule	Assign more people in desing
<04>	<H>	<L>	Schedule of developing Font-end project will be	schedule	Spent more time in learning front-end skills
